

Located on 15 acres in Elberfeld, Indiana, Integrated Systems Manufacturing, Inc. manufactures robots using tomorrow's technology.

A two story glass corner tower defines the entry to the facility.

On the second floor a balcony in the tower contains a robotic arm that is lighted at night. It waves to motorists along interstate 64 located adjacent to, and north of the site.

Fully air conditioned, the manufacturing area has a porcelain tile floor and is viewed from observation windows above on the second floor. Visitors to the facility are guided past the windows to view production capabilities.

The east first floor wall is "inset" and provides several covered parking spaces.

HVAC utilizes water source heat pumps.

Client: Integrated Systems Mfg.

Location: Elberfeld, Indiana

Size: 63,000 square feet

EXISTING

Proposed for Princeton, Indiana, Orion Electric would double their size, in order to meet the demand of an expanding market.

Designing a new facility that coordinates with the existing office-warehouse, and allows for expansion, was the main construction objective.

The new (240' x 480') facility, with a (80' x 140') two-story office addition to be built south of the existing manufacturing facility was equipped and designed to meet the needs of its clients and employees.

The project included 100% air conditioning, four new loading docks, expansion of the manufacturing production line, spacious offices, and bathroom facilities to sufficiently meet design requirements.

Client: Orion Electric Incorporated

Location: Princeton, Indiana

Size: 115,000 square feet

Architecture Plus developed a master plan for a 50-acre site in Huntingburg, Indiana, on which a new 600,000 square foot warehouse -office facility was developed. The master plan included phases I, II, III and IV for planned warehouse expansions. The first construction phase is shown. The facility utilized tilt-up concrete wall construction.

Client: A Touch of Class

Location: Huntingburg, Indiana

Size: 285,000 square feet

ENTRY

OFFICE ATRIUM

RENDERING

Matrixx manufacturing facility consists of a two-story office complex overlooking a lake, a cafeteria constructed with translucent panel roofing for maximum daylighting, and a manufacturing plant designed with windows along the entire north facade to optimize the working environment.

The manufacturing plant is air-conditioned throughout and offers an outdoor sitting-eating area for employees.

The striking design of the office exterior continues into the interior atrium with oak woodwork, solid oak doors, and porcelain tile.

Client: The Matrixx Group

Location: Evansville, Indiana

Size: 130,000 square feet
